Seniors need *you*.

Families need *you*.

Healthcare Providers need *you*.

"Working with the eldering population is enriching and inspiring. My

MPS private practice enables me to reach isolated Seniors. More access to psychotherapy helps them on their journey with more peace, dignity and fewer physical health conditions. Our MPS billing service is user friendly, making submissions quick and easy. My income has doubled, my schedule is flexible and I'm doing what I love!

Janet Bychek, MSW, LCSW
Boulder & Longmont, CO

"Without the support of MPS, I probably wouldn't have gone into

private practice. As a franchisee, I value the streamlined process between vetting referrals and receiving payments. My practice generates an above-average social work income with low overhead. The independence and control I have over my schedule works well when coordinating family activities. Providing mental health services to underserved Seniors is both challenging and gratifying."

Suzanne Becker, MSW, LCSW
Brush & Fort Morgan, CO

"Providing psychotherapy to my clients is joyful and rewarding.

MPS makes it easy to say yes to this franchise opportunity because they help set up the private practice and have a simple-to-use online daily billing service. Our attractive, memorable logo also helps increase marketability to my referral sources. Seeing clients in their residence complements my in-office work. When working in tandem with in-home health care professionals our clients' overall treatment is more effective.

Pam Goodfriend, MSW, LCSW, CACIII
Arvada, Lafayette & Northglenn, CO

Jo Frederic, ACSW, LCSW, CSW-G
